Description

Custom Carolina Boat

Brand new to the market and ready for her next adventure is this 42 East Bay Carolina Custom. Designed and built by the legendary Capt. Ricky Gillikin of North Carolina. A true Carolina Boat in every aspect, this boat is cold molded constructed with a design that creates superior performance and a smooth ride even in the roughest of conditions. Powered by the super economical Cummins QSC 8.3 engines to produce an extremely quick and low maintenance engine package. She comfortably cruises at 27t knots with an impressively low 43 gph. The owner has operated and maintained this rig with an open checkbook. Fresh out of a major refit at Spencer Yachts, she has received many upgrades including new bottom paint and bearings on running gear, new 8600 series Garmin electronics, new teak decks, new covering boards and major engine service. The interior space is ample to sleep several guests in a luxurious environment and all the amenities you would expect from a pedigree boat such as this. She is nothing short of a nimble, offshore battlewagon. This is a rare find in today's market for an offering built this well and in complete Palm Beach condition. A girl from this tough of a neighborhood, you know you can take her anywhere! This is the one you have been waiting for. Please call today to schedule a private showing. Located in Morehead City, NC.
